

first announcement

The most **important** meeting on **celiac disease**

15th International
Celiac Disease
Symposium

september 22–25, 2013
chicago, illinois USA
www.icds2013.org

The **ICDS 2013** is for everyone affected by or interested in celiac disease and gluten-related disorders.

symposium chairs:

Stefano Guandalini, MD

Founder and Medical Director, The University of Chicago Celiac Disease Center

Bana Jabri, MD, PhD

Director of Research, The University of Chicago Celiac Disease Center

headquarters hotel:

Sheraton Chicago Hotel and Towers

301 East North Water Street, Chicago, Illinois 60611 USA

The meeting will have two educational tracks:

clinical forum

The Clinical Forum is designed for clinicians, such as Physicians, Registered Dietitians, Physician Assistants, Nurse Practitioners, Nurses and those living with celiac disease or non-celiac gluten sensitivity. This forum will allow participants to learn about the latest research and scientific advances from the world's leading experts—the very same experts that will be presenting in the Scientific Forum. The information presented will be relevant for practical application to those living with the disease or condition, and sessions will allow ample time for Q&A and interactive discussion.

Clinical Program* Sessions will include:

Celiac Disease Today: An Overview

Diagnosing Celiac Disease in 2013: Serology, Diagnostics, and Biopsy

The Gluten-Free Diet Today & Tomorrow: Nutrition & Probiotics

Treatments in Celiac Disease Today and Tomorrow: A Round Table

Debunking Myths - And Plenty of Them!

Psychology of Celiac Disease

Non-Celiac Gluten Sensitivity: All You Need to Know

Public Policy: Insurance, Schools, Labeling, Restaurants,

Accreditation & Certification

Celiac Disease In Emerging Countries: What Are The Problems?

The Genes of Celiac: How to Use Them and How to Interpret Them

Melting the Iceberg: Potential, Latent, Silent: To Treat or Not to Treat?

Celiac Not Improving on a Gluten-Free Diet: What's Wrong?

*Subject to change

scientific forum

The Scientific Forum is designed for those in active research roles in the area of celiac disease and gluten-related disorders, including Scientists, Physician Scientists, Researchers, Fellows and other investigators. This is a forum for these investigators to debate and discuss new theories and data on topics selected by the Scientific Committee. These experts will present, debate and challenge the latest findings to help further the research process.

Scientific Program* will have three keynote sessions:

System Biology and Functional Genomic Approach

Exploring the Human Microbiota

The History of Human Strain

Scientific debate and discussion will include*:

• Pathogenesis

• Microbes and Celiac

• Diagnosing Celiac Disease in 2013

• Non-Responsive Celiac Disease

• Potential Celiac

• Gluten Sensitivity

• Clinical Issues

• New Treatments

*Subject to change
